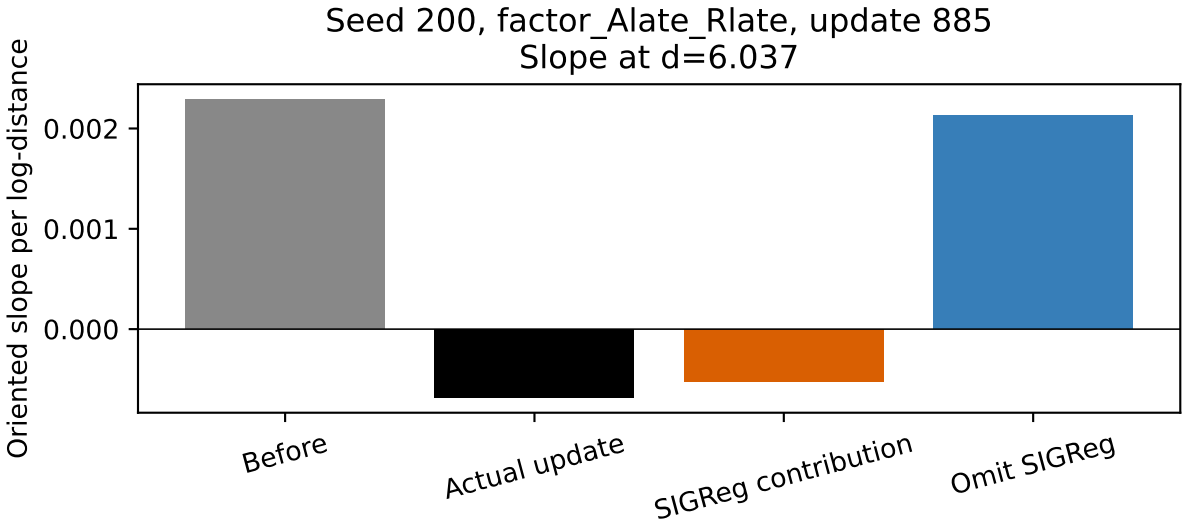
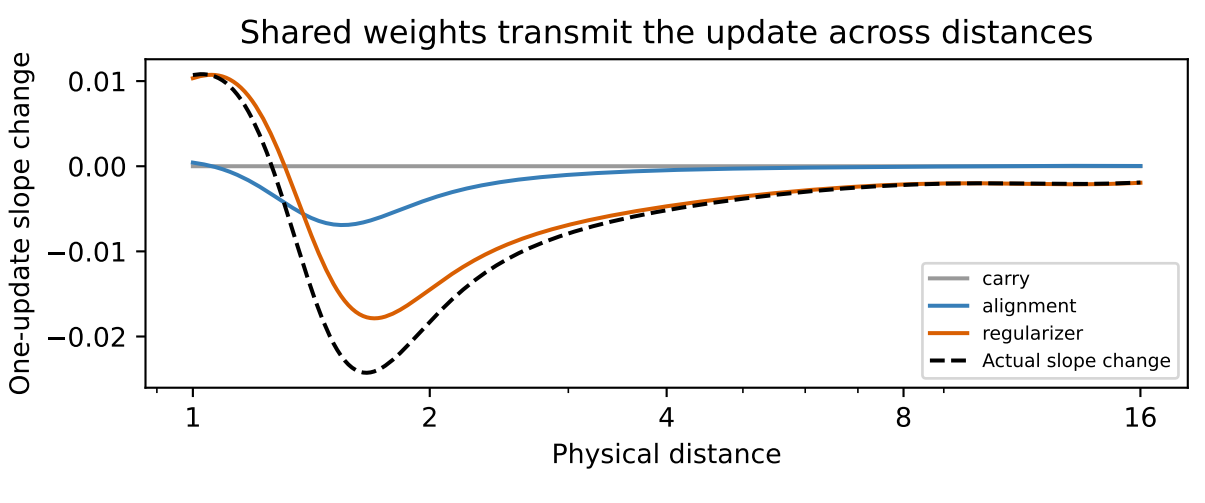
Every first-fold event in the preselected five-seed/four-cell replay cohort
Component interventions use the same combined Adam denominator; no separate optimizers

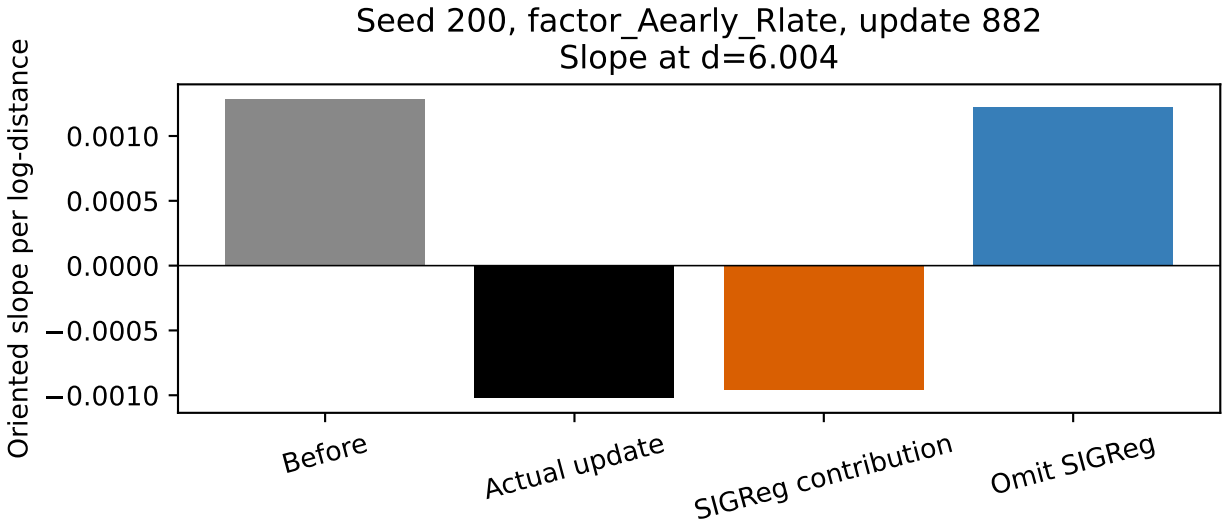
Seed 200, factor_Alate_Rlate, update 885
Slope at d=6.037



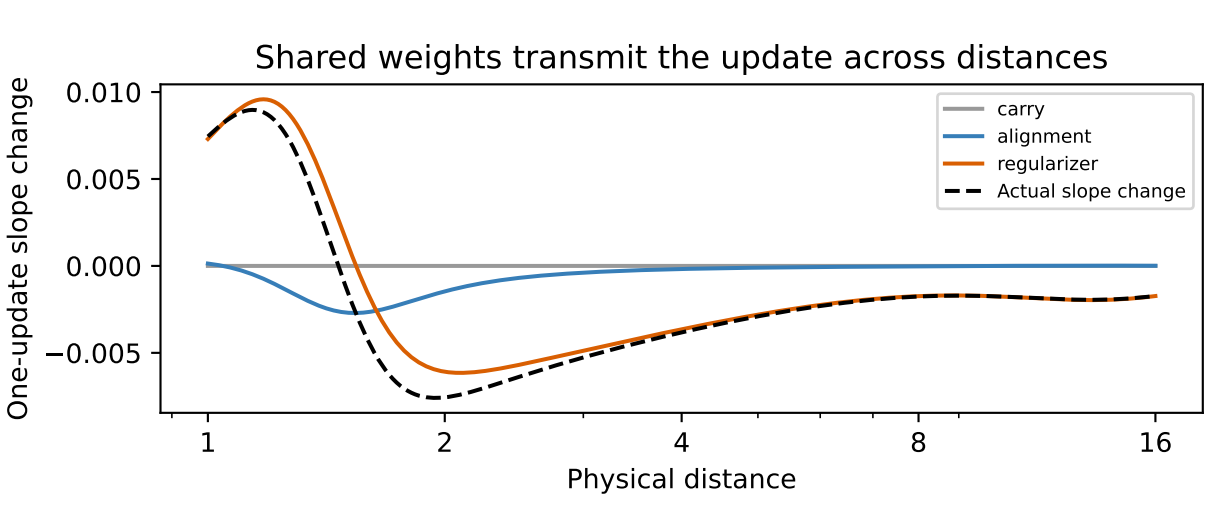
Shared weights transmit the update across distances



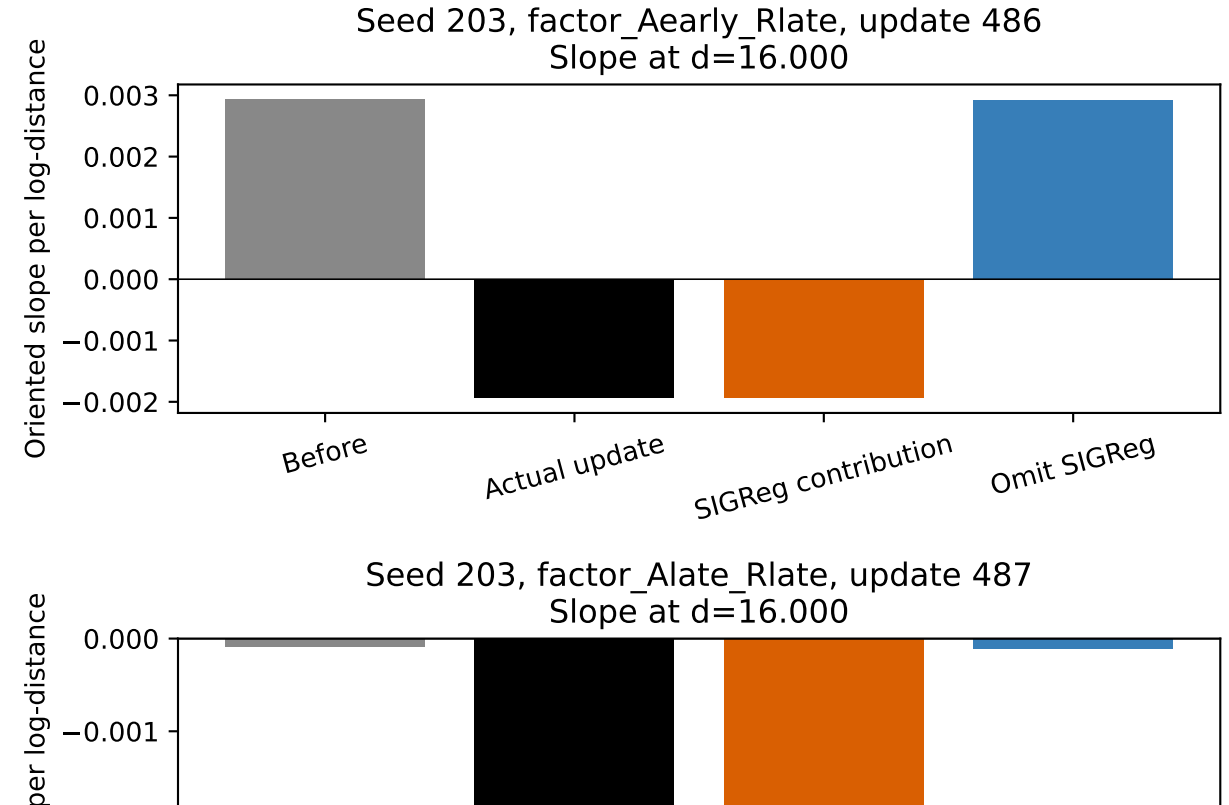
Seed 200, factor_Aearly_Rlate, update 882
Slope at d=6.004



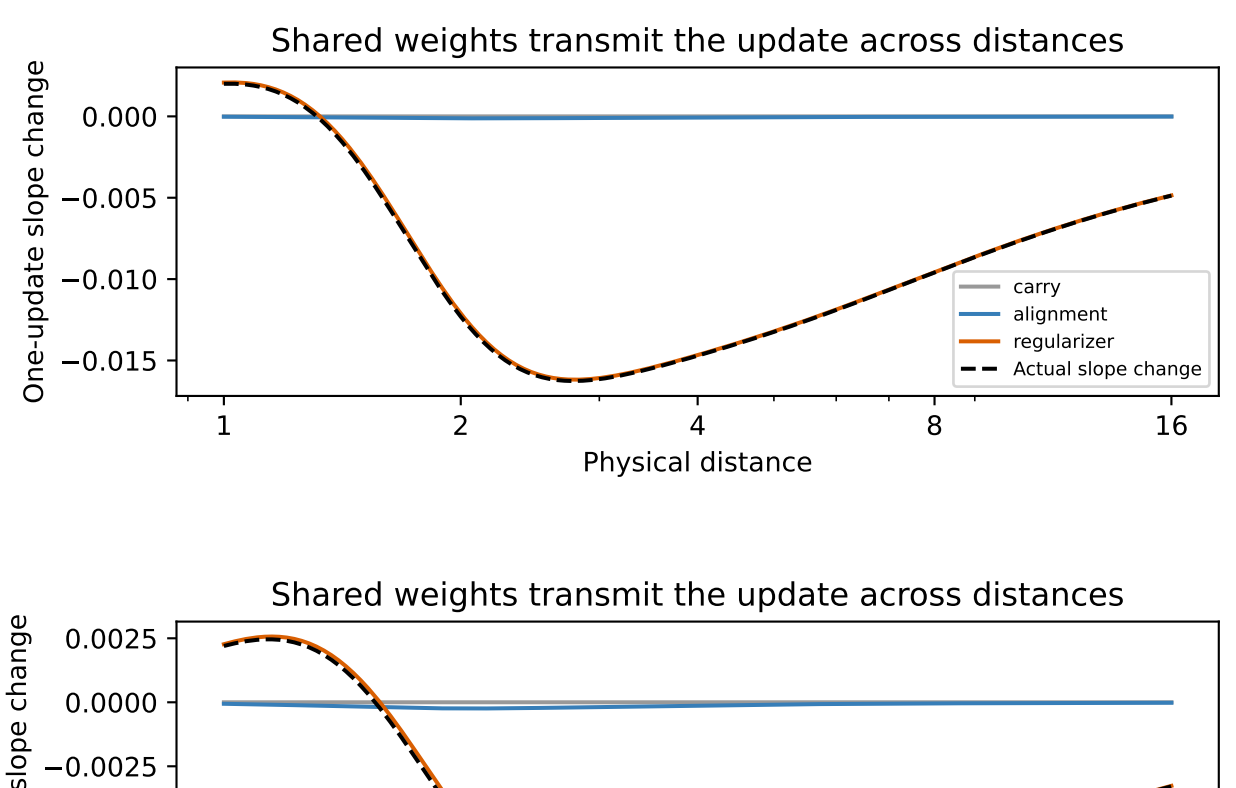
Shared weights transmit the update across distances



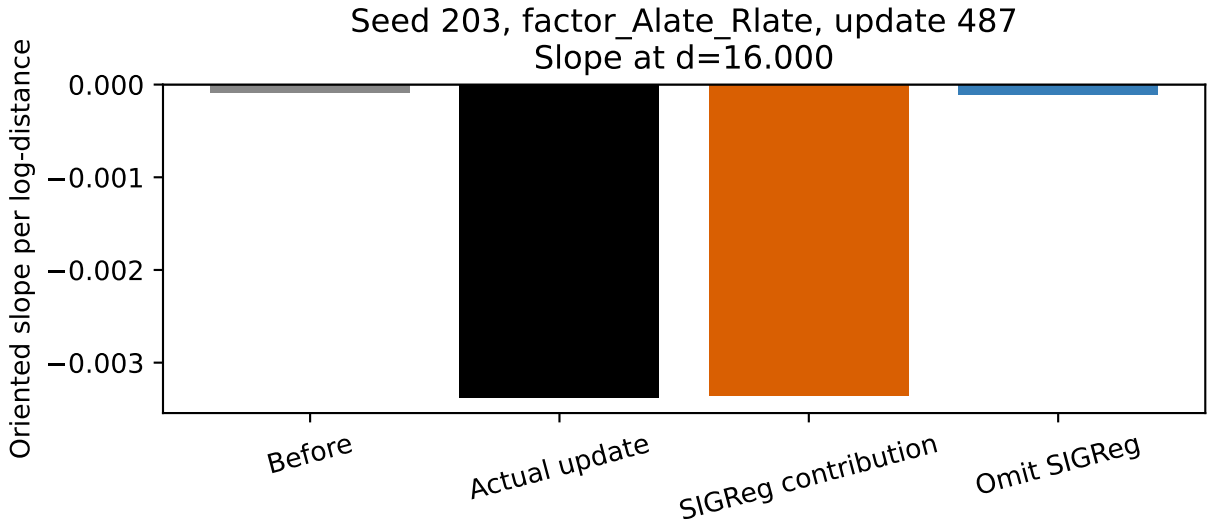
Seed 203, factor_Aearly_Rlate, update 486
Slope at d=16.000



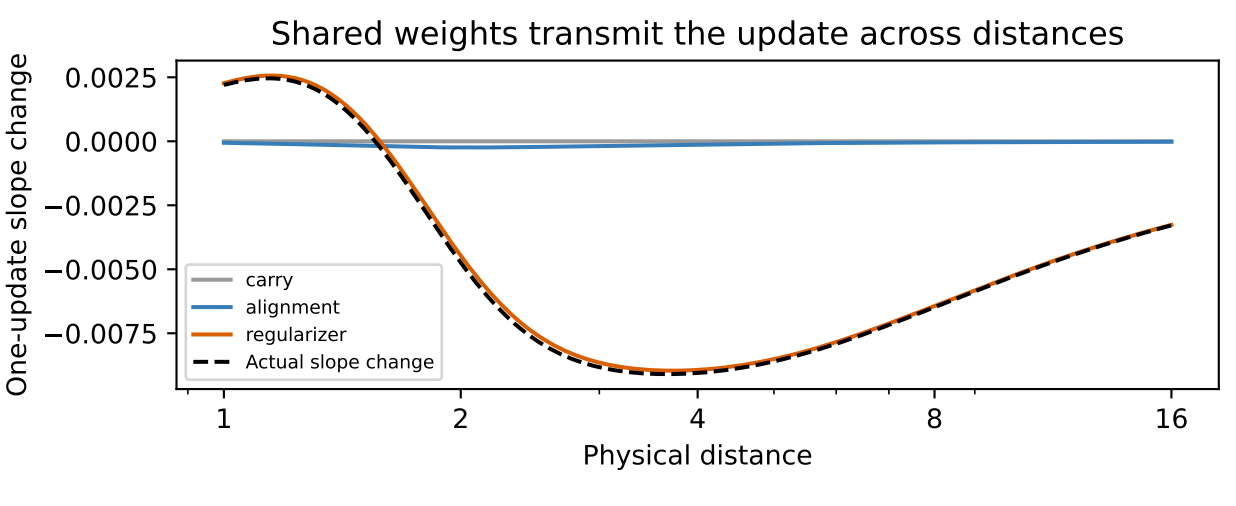
Shared weights transmit the update across distances



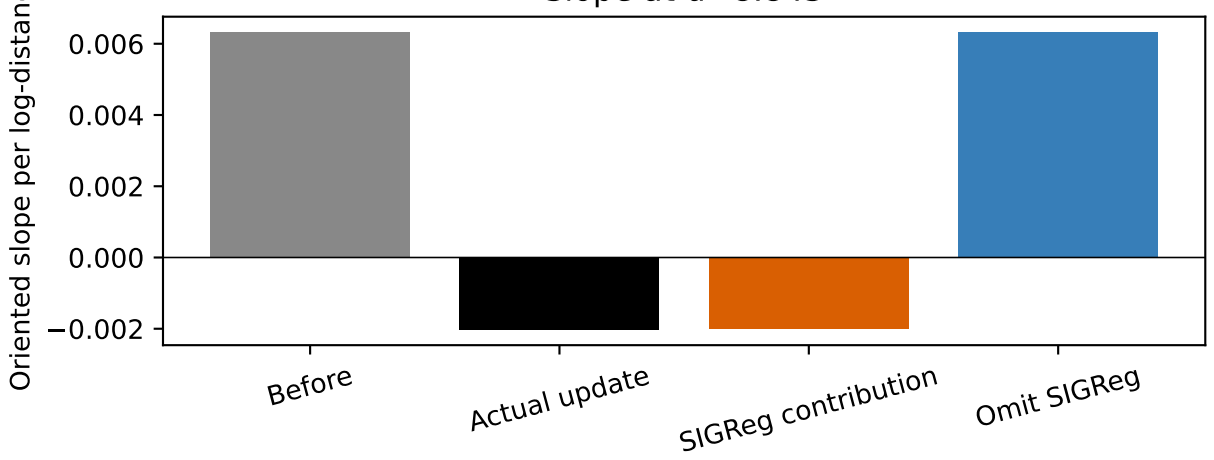
Seed 203, factor_Alate_Rlate, update 487
Slope at d=16.000



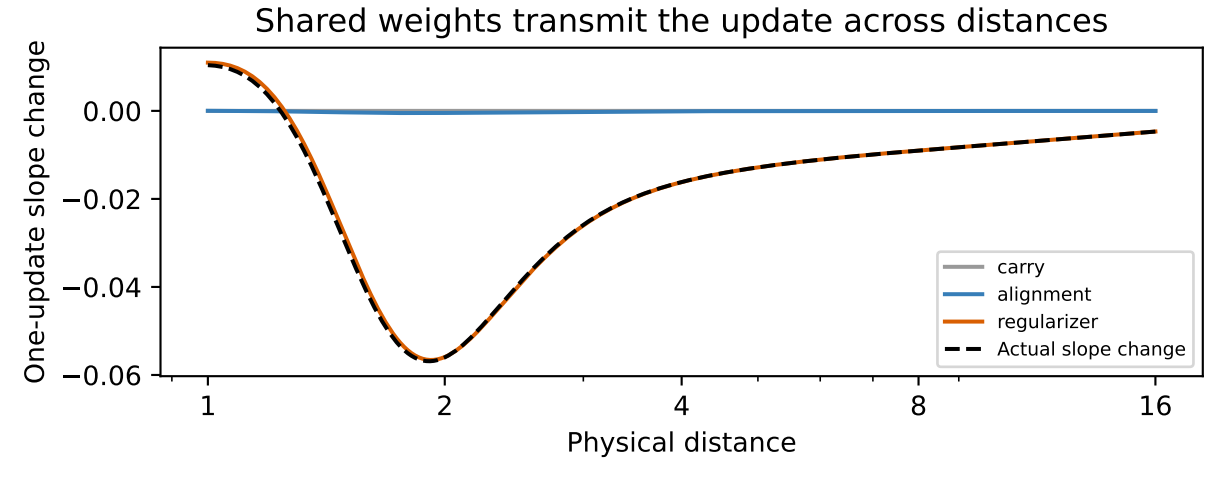
Shared weights transmit the update across distances



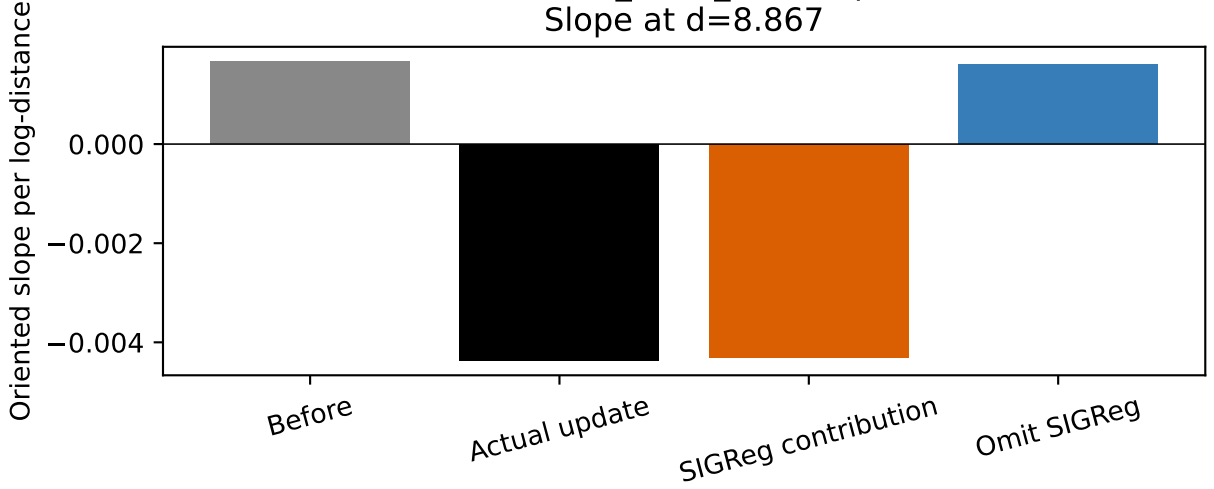
Seed 204, factor_Aearly_Rlate, update 431
Slope at d=8.843

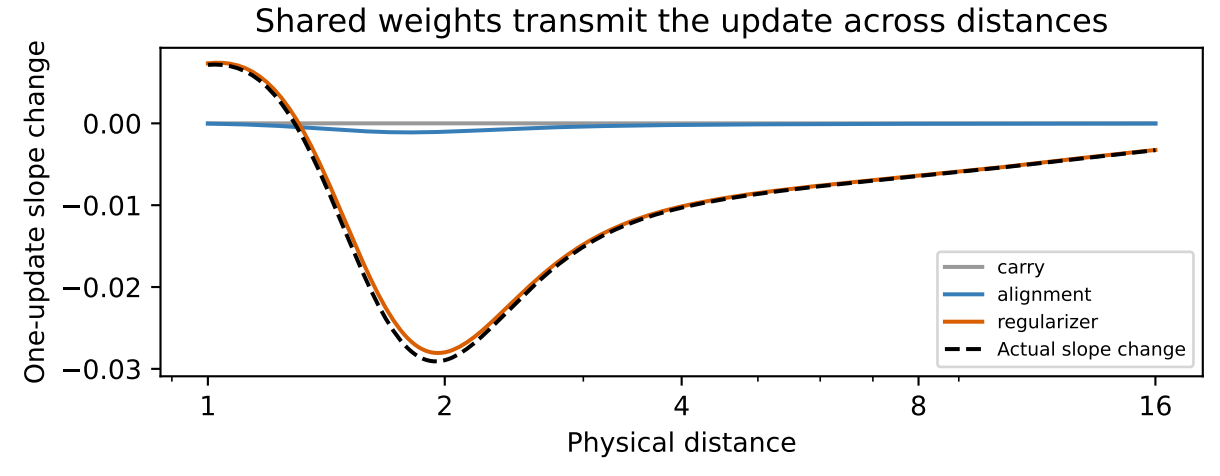


Shared weights transmit the update across distances



Seed 204, factor_Alate_Rlate, update 432
Slope at d=8.867





Shared weights transmit the update across distances
